These are **basic** supplies for each class. Because each class section or elective may require more specific items (that don't necessarily apply to all students in that particular grade level), students should wait until teachers meet with them on the first day of school to see if additional items may be needed.

If you are able to, teachers always welcome the donation of tissues, disinfecting wipes, or hand sanitizer so that they can maintain a healthier classroom setting. These are NOT required items.

If students cannot get all needed supplies, they should check with Mrs. Currin or Mrs. Pedro for some basic supplies.
