During the afternoon, you have a choice of either completing the work from your morning classes or completing the work from the courses you had the day before. It depends on how you try to manage and schedule your time. We believe, though, that it will be easiest for you to think of each day as having a block schedule...dealing with 3 classes and 3 instructors. Again, this depends on how well you manage your time.

Students Who Chose the All Virtual Plan:

You should continue to choose an a.m. or p.m. group to follow. See the information above.

For All Students: It is important that you understand that each day is a full school day and not a half-day. The expectation will be for all students to put in a full day's work each day. If you happen to have an **emergency** and must miss your session, get on during the other session. Communicate with your instructors. Please have high expectations for yourself! We will have high expectations for you.
